Indoor Grow Site Information. Please identify each indoor grow site using the format below. Attach additional pages as needed. Non-contiguous facilities separated by more than 50 miles require a separate license application and fees. **GPS coordinates for each facility must be provided in decimal degrees (include at least 5 decimal places).** In addition, please attach aerial photos/maps to provide inspectors with the details they need to safely navigate to your grow sites. Your application will not be approved unless this information is provided. Maps and GPS coordinates can be found on websites such as www.google.com/maps.
