MAINE BOARD OF PESTICIDES CONTROL POLICY REGARDING THE TREATMENT OF ADJUVANTS AS PESTICIDES

Adopted XXXX

BACKGROUND

Recently, LD 2019 “An Act To Require the Registration of Adjuvants in the State and To Regulate the Distribution of Pesticides with Perfluoroalkyl and Polyfluoroalkyl Substances” (PL 2022 c.673) was approved by the 130th Maine Legislature in 2022. Under this law, adjuvants were added to the definition of pesticides and must now be registered within the State of Maine. The Board has discussed several policies related to spray adjuvants, which have been consolidated below. The purpose of this policy is to clarify the Board’s decisions regarding the treatment of “spray adjuvants” in the state of Maine. This policy clarification incorporates three topics:

Inclusion of Colorants: At the February 24, 2023 Board meeting, the Board discussed a staff memo regarding added colorants and if they are considered pesticides under the new state definition. An informal vote was taken, and the majority of Board members stated that colorants did not fit into the definition of adjuvants given that they do not increase the efficacy of the applied product.

Currently held stock: At the July 21, 2023 Board meeting, the Board discussed a staff memo regarding the distribution of spray adjuvant products. The Board voted to adopt the proposed policy that would treat adjuvant products in possession of dealers, distributors, and end users the same as pesticides in Chapter 20, Section 1. D.

Recordkeeping: There is also a need to review recordkeeping and reporting requirements for adjuvants. Staff have included proposed language for this section of the policy below.

POLICY

Definition

Under state law, “spray adjuvants” are included in the definition of “pesticide” and are defined under Title 7 §604(31-A) as:

31-A. Spray adjuvant. "Spray adjuvant" means any wetting agent, spreading agent, sticker, deposit builder, adhesive, emulsifying agent, deflocculating agent, water modifier or similar agent that is intended to be used with any other pesticide as an aid to the application or the effect of it and that is in a package or container separate from that of the other pesticide.

Colorants and Water

Adjuvants that are labeled as added colorants for pesticides are not considered spray adjuvants in Maine.

Distribution

Spray adjuvant products that were in the possession of dealers, distributors, and end users when PL 2022 c. 673 became effective on August 8, 2022 will be included as “pesticides no longer registered in Maine” under Chapter 20, Section 1(D).

Chapter 20, Section 1. D.

Retailers and end users of pesticides no longer registered in Maine may continue to sell and use those items provided they were properly registered when obtained and such distribution and use is not prohibited by FIFRA or other Federal law.

Recordkeeping

Spray adjuvants considered to be pesticides in the State of Maine must be included in recordkeeping and reporting requirements as stated in Chapter 50. In records and reports, the term “Primary Functioning Agent (PFA)” will be used in place of “active ingredient” on records where the active ingredient is required. Likewise, for recordkeeping activities, the term “Constituents Ineffective As Spray Adjuvants (CIASAs)” will be used in spray adjuvants to replace of the terms “Other” or “Inert” typically used in pesticides.
