

Appendix B-2 – Lakes in need of guaranteed public access or additional access development, as identified by DIFW regional fisheries biologists. Towns listed only serve to identify the water and are not necessarily the towns where access facilities would be located. (List does not identify all the access needs statewide)

Lakes marked with an single asterisk are those that have been given highest priority for access acquisition and development.

Lakes marked with a triple asterisk are classified as Management Class 2 lake under the Land Use Regulation Commission's policies and standards with access sites requiring special consideration. (See Issue 6.)

<u>COUNTY</u>	<u>TOWN</u>	<u>WATER</u>	<u>ACRES</u>	<u>ACCESS TYPE</u>
