PAUL R. LePAGE
GOVERNOR

JOHN E. MORRIS
COMMISSIONER

JAY BRADSHAW
DIRECTOR

May 26, 2015

We are pleased to provide the annual report of the Maine Emergency Medical Service Run Report System (MEMSRR) for calendar year 2014.

The information in this report comes directly from the incident and patient care reports and has been compiled in the following manner:

- Section 1:** Provides the agency demographic overview by service license, organization type, and license levels
- Section 2:** A summary of the response data collected from each report
- Section 3:** A breakdown of the transports to and from Maine hospitals
- Section 4:** An overview of agency response totals by region and month
- Section 5:** Provider demographics
- Section 6:** Reporting system compliance by region

In 2014, this information was used for protocol review as well as projects relating to highway safety and trauma research. The data collected within the MEMSRR was also used in a quality improvement review of out of hospital cardiac arrest. Through this review the Maine EMS QI committee was able to establish the current survivability of these events.

A reminder that the Maine EMS Rules require completed run reports to be submitted within one business day of a call. Timely submission of a complete and accurate patient care report is a critical component of providing quality patient care.

Thank you to all the services and providers who provide this information. The patient care and incident reports entered into the MEMSRR provide invaluable information that benefits our patients, our services, our individual practices, and our EMS system.

Sincerely,

Jonathan N Powers, NR-Paramedic
Data & Preparedness Coordinator
